

Mr. Song Xiquan

President of Tayho Advanced Materials Group

Song Xiquan, born in 1974, received his Master's degree in Materials Science from Dalian University of Technology and is a Researcher of Engineering Technology. He currently serves as Chairman of Tayho Advanced Materials Group Co., Ltd.

He has long been engaged in the R&D and industrialization of aramid fibers, with 26 authorized invention patents and multiple national and provincial science and technology progress awards. His technologies have led Tayho to become the world's second-largest supplier of high-end aramid products, filled key technological gaps in China, and greatly strengthened China's competitiveness in the global high-performance fiber industry.
