

Mr. Redma Gita Wirawasta

Chairman of Indonesian Fiber and Filament Yarn Makers Association

Redma Gita Wirawasta is a seasoned professional in the textile and apparel industry with an extensive background in leadership, industrial analysis, and organizational development. He holds a degree in Textile Technology from the Textile Technology Institute in Bandung and a Master of Management from Trisakti University in Jakarta. Throughout his career, Redma has augmented his academic foundation with specialized international training in areas such as ISO 9000, solid waste treatment in Japan, garment machinery in Thailand, and international trade programs in South Korea. Most recently, in 2023, he completed a program at the National Defense Institute (Lemhannas) in Jakarta.

Redma's career is defined by a long-standing commitment to the Indonesian textile sector. He has served in several high-level capacities, including a decade-long tenure as the Secretary General of the Indonesia Fiber and Filament Yarn Maker Association (APSyFI) before becoming its Chairman in 2021. His expertise has also been sought by the public sector, where he served on the Technical Team for the Machinery Restructuring Program at the Ministry of Industry for eight years. Additionally, he has held significant leadership roles within the Association of Indonesian Textiles Experts (IKATSI), serving as both Chairman and Vice Chairman.

Beyond industry-specific associations, Redma is deeply involved in broader trade and commerce organizations. He currently serves as the Committee Chairman of Extraordinary Members for the Indonesia Chamber of Commerce and Industry (KADIN Indonesia) and, as of 2025, holds the position of Deputy Chairman of Organization and Members Development at the Indonesia Exporter Association (IEA). His background also includes editorial leadership for prominent industry publications and ongoing advisory roles, demonstrating a comprehensive influence on both the technical and strategic directions of the Indonesian industrial landscape.
