

Mr. Rizwan Afzal Chaudhry

Chairman of Polyester Staple Fibre Manufacturers Group, Pakistan

Rizwan A. Chaudhry studied in England for his BSC (Hons) degree in Textiles Technology from the University of Bolton, Lancashire in 1992. Subsequently, he also completed his Executive MBA degree from Lahore University of Management Sciences (LUMS) with the academic distinction of Gold Medal in 2008.

He represents the domestic PSF industry at both national and international forums, bringing depth of knowledge around regulations and future developments in the Polyester industry dynamics.

He has gained very diverse professional work experience spanning over 30 years, predominantly in the textile value chain, starting from raw materials to finished value-added textiles.

Rizwan led the first organized sector investment in 100% recycled fibre in the country many years ago and subsequently developed commercially produced the most innovative sustainability focused fibre such as Biodegradable and textile to textile fibres in collaboration with various international partners. He also worked with fibre traceability platforms and his company is pioneer in adapting both digital and physical traceability technology for PSF.

He has been instrumental in developing global brands and tier 4 producer connectivity, resulting in improved visibility of challenges for both and better collaboration for longer-term sustainability and value creation for the textile industry.

He has also been a guest speaker at both local and international forums focusing on topics such as CPEC (China Pakistan Economic Corridor), Polyester and downstream supply and demand dynamics, fundamentals of B2B sales and many others.
